

# InnoEX 2026

13-16 April 2026  
Hong Kong Convention and Exhibition Centre

**Funding organisation:**

**Organiser:**

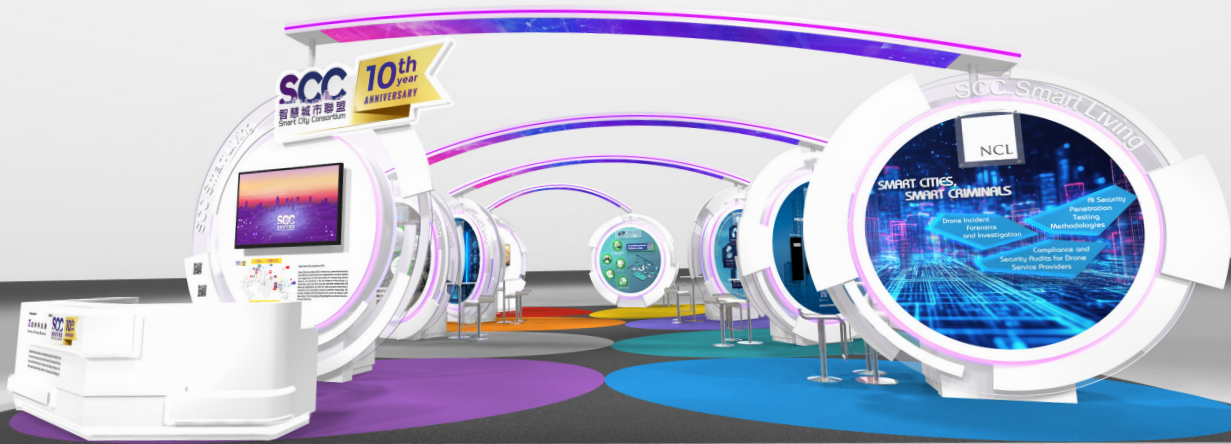

**Sponsor:**

**Supporting Organisations:**

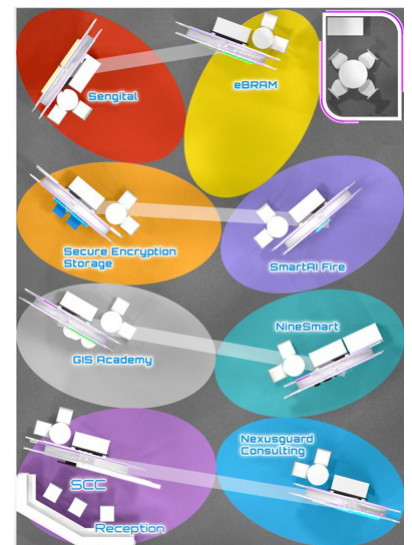

## SCC Smart Living Pavilion Hall 3D-A01

### Smart Technologies include:

- **AI Empowered the Fire Safety Management (by SmartAI Fire)**
- **Brings Tech to Life (by eBRAM)**
- **GeoAI for Enhanced Construction Workflow (by GIS Academy)**
- **Poffices GenAI Agents System (by Sengital)**
- **Smart Cities, Smart Criminals (by Nexusguard Consulting)**
- **Smart PropTech Solution (by NineSmart)**
- **Smart Secure Encryption Storage (by Secure Encryption Storage)**

Any opinions, findings, conclusions or recommendations expressed in this material/event (or by members of the project team) do not reflect the views of the Government of the Hong Kong Special Administrative Region, the Innovation and Technology Commission or the General Support Programme Vetting Committee of the Innovation and Technology Fund.

# SCC Smart Living Pavilion @ InnoEX Hall 3D-A01

eBRAM  
<http://www.eBRAM.org>  
 Randy Tse (852-3792 0961)  
[marketing@eBRAM.org](mailto:marketing@eBRAM.org)

Established with the support of the Hong Kong SAR Government's Department of Justice, eBRAM leverages LawTech to help enterprises enhance efficiency, facilitate cross-border collaboration, strengthen business processes, and reduce dispute risks.

### Key LawTech Services

**Deal Making Portal (DMP):** business matching and transaction workflow management

**E-signature:** secure and efficient online document execution across jurisdictions

**Video Conferencing System:** online meetings and seamless cross-border communication

**Event Real-Time Captioning and Translation:** multilingual events and professional exchanges

Contact us today to explore your LawTech journey.

SmartAI Fire Limited  
<https://smartfire.ai>  
 Jeffrey Chow (852-3185 4177)  
[Info@smartfire.ai](mailto:Info@smartfire.ai)

### FAST AIoT Platform

Beyond detection, the FAST's core intelligence lies in predictive analytics and maintenance. It performs continuous fault diagnosis and forecasts potential failures. This shift from reactive compliance to predictive assurance enhances operational efficiency, reduces costs and ensures peak system reliability.

This AI-driven solution elevates fire safety to a strategic function. It enables intelligent emergency response and builds community trust by demonstrating a commitment to cutting-edge safety and social responsibility. This creates a safer, more resilient and efficiently managed environment.

GIS Academy  
<http://gisacademy.hk/>  
 Joanne Hui (852-3768 5955)  
[info@gisacademy.hk](mailto:info@gisacademy.hk)

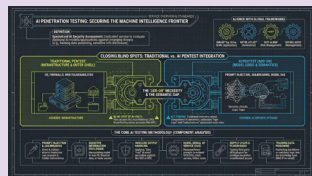

### Geospatial AI Solutions for Enhanced Construction Workflow

Our AI enhanced solutions integrate LLMs and GIS to streamline infrastructure management, including:

- An assistant that enables natural language access to road maintenance data
- Survey123 AI tool that automatically generates inspection reports
- AI-powered image analysis feature that identifies construction vehicles and license plates to strengthen smart site safety and operational oversight.

Nexusguard Consulting Limited  
<https://www.nexusguard.consulting>  
 Leo Mak (852-2386 0118)  
[sales\\_ncl@nexusguard.com](mailto:sales_ncl@nexusguard.com)

### AI Security Penetration Testing Methodologies

- Tailored for AI-driven systems, we identify unique vulnerabilities in AI/ML models, ensuring robust protection against sophisticated cyber threats often missed by conventional measures.

### Drone Incident Forensics and Investigation

- We analyze drone accidents and breaches with specialized forensic methods, providing actionable insights to mitigate risks and enhance operational safety in logistics, surveillance, and public safety.

### Compliance and Security Audits for Drone Service Providers

- Our audits ensure drone operators meet evolving regulatory standards while proactively addressing security vulnerabilities, future-proofing operations against legal and emerging threats.

Secure Encryption Storage Limited  
<https://www.secures.hk/>  
 Kanter Tsui (852-2386 0118)  
[kantertsui@secures.hk](mailto:kantertsui@secures.hk)

### Smart Secure Encryption Storage

Based on the SES encryption server, we establish a comprehensive data protection system and professional data protection service processes to safeguard business data in all aspects. By actively implementing complete data protection solutions, we can carry out effective disaster recovery in the event of data loss and avoid losses caused by data disasters.

Sengital Limited  
<https://poffices.ai/>  
 Joe Wong (852-2144 2628)  
[info@sengital.com](mailto:info@sengital.com)

### 1. Poffices.AI

Let's try! <https://Poffices.AI> is a GenAI platform featuring 100+ agents. Share your request and watch tasks auto-complete in about 2 minutes. It can generate text, images, and flowcharts, with export options to DOCX or PPT.

With **Creator Studio**, anyone can build custom agents—making it an engaging tool for teachers to help students learn how to create their own AI agents.

### 2. Poffices AI0<sup>2</sup> Server

Poffices AI0<sup>2</sup> Server empowers enterprises over 100 AI agents, optimized LLMs, and high-speed search, all operating offline for maximum data privacy.

Our "**Creator Studio**" allows anyone to create custom AI agents, serving as an invaluable educational tool for teaching students about AI development.

NineSmart Limited

### Smart PropTech Solution

Smart Property by NineSmart is an all-in-one property management platform that integrates AI, IoT & automation into a unified cloud infrastructure. Designed for residential and commercial spaces, it centralizes operations—including access control, facility booking and smart mailboxes, —into a single, user-friendly app.

NineSmart drives digital transformation through smart mobility, sustainable construction and smart building upgrades. These solutions help property owners overcome challenges in optimizing building performance, digital transformation, lowering operational costs, boosting energy efficiency, and enhancing overall comfort—creating a future-ready environment.
